COGNAC

TRANSMISSION

STRUCTURED AND GENEROUS COGNAC

I have now been farming my vineyard organically for more than 20 years. I inherited healthy land that I want to pass on and help preserve for the future. Respect for the environment must be one of the major commitments of future generations. What land will we leave to our children tomorrow? I would like to dedicate this Cognac to generations to come, and especially to my children. Transmission symbolizes the fruit of careful, conscientious work by one generation ready to pass the baton to the next.
